

The Lean-Agile concept shifts the emphasis of the function from simply reporting to providing essential services and preventing activities from going wrong. The course outlines the process and capability changes needed to up-shift the PMO function providing a purposeful 'just-enough' governance framework for both agile and traditional projects and programmes.

Why should you take the course?

- 01 Understand how a PMO needs to function to support agile and traditional projects
- 02 Understand how metrics are used in planning, analysis and reporting agile projects
- 03 Evaluate the suitability of risk management strategies
- 04 Evaluate, monitor and control agile projects using Red Amber Green analysis

Duration: 1 day
Price: £390 + VAT

“I have to say there was nothing that I didn't find interesting on the day as it just reinvigorated my whole interest and I wanted to come away and make changes”

Agile Frameworks and the PMO

Successful Agile change comes from within an organisation. This course is designed to show how the PMO can become a catalyst during the change. Acting as a foundation for a PMO seeking to lead an Agile transformation, it identifies the unique aspects of the main Agile at Scale frameworks and explores what is meant by Agile, stepping beyond the Agile Manifesto.

Why should you take the course?

- 01 Understand the key features of leading Agile at Scale frameworks
- 02 Recognise how the PMO needs to adapt to support each framework
- 03 Understand a typical agile transformation roadmap
- 04 Cover the key elements of PRINCE2 Agile®

PMO Learning is the UK's only exclusively PMO focussed training company. We run and develop certification and specialist training courses as well as providing consultancy, coaching and bespoke course creation.
