Essentials for PMO Managers™
3 days

Gain the essential knowledge to undertake the role of a PMO Manager - whether you work for an organisation wanting to ensure your PMO Managers have the capability to set up and run this office effectively, or are an individual looking to advance your career, this course offers a comprehensive blueprint for best practice in this role.

The Essentials for PMO Managers qualifications is aimed at current PMO Managers or PMO Leads, especially those new or moving into this role. The training is also suitable for those aspiring to be PMO Managers and senior Project or Programme Managers moving into a PMO leadership position.

What You Will Learn

• The essential knowledge and skills needed to undertake the role of a PMO Manager.

• How PMOs support project, programme and portfolio management activity.

• The four key roles within a PMO (PMO Administrator, PMO Analyst, PMO Manager and PMO Director) and when different types of PMOs are required.

• The competencies required to successfully undertake the role of a PMO Manager - including governance, delivery frameworks, assurance, capability and capacity.

Why PMO Learning?

PMO Learning provides training courses and learning experiences for people who work within PMOs.
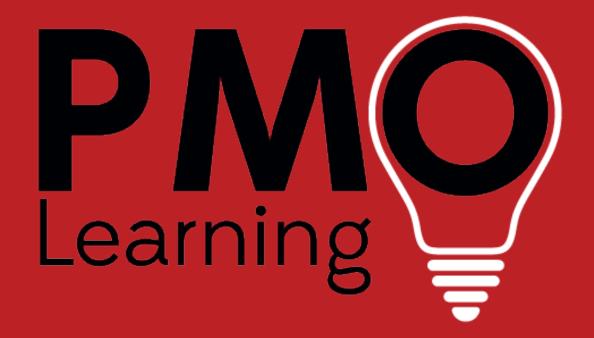

That's Portfolio, Programme and Project Offices and courses for everyone within PMO from PMO Administrators through to PMO Directors.

We provide both certification programmes and specialist and bespoke courses for open public schedules and on-site corporate group learning.

All of our trainers have real PMO experience, to help you implement your learning into your day-to-day role.
