

PMO Learning Course Offerings v1.2

All course prices are valid from May 2022

Course Formats

Inhouse – All PMO Learning courses are available as inhouse courses. We can deliver at a location of your choice, or via virtual classroom. Inhouse courses are a cost-effective way of training teams of 6 – 12 delegates as well as allowing discussions and exercises to be focussed entirely on your organisation. For non-certification courses, we can also tailor the courses to align to your organisation terminology and delivery framework. Please contact us directly for an in-house course quote.

Classroom – Classroom courses are taught in a physical classroom. Public courses are scheduled across the UK.

Virtual Classroom – Virtual classroom courses are taught via Zoom. We have adapted our classroom courses to be delivered effectively in the virtual format including adopting the materials and exercises to maintain the same level of interaction as a standard classroom course.

Distance Learning – Distance learning is available to delegates looking to study at their own pace, in their own time.

eLearning – eLearning is available delegates looking to study at their own pace, in their own time. It is typically more interactive than Distance Learning.

Certification Courses
